# ACCESS TO CAPITAL

A wide variety of financing is available to Miami-Dade County businesses. The length of time that a company has been in business, credit rating status, collateral available, and a number of other variables help determine the financing options that will best match your business.

Options include the following:

- Commercial banks provide short, intermediate and long-term financing for fixed assets, working capital, and international transactions.

Many banks throughout Miami-Dade County have enhanced their underwriting capacity for small and higher-risk businesses by offering government-backed loan products and have launched programs targeted to the small business market. Most banks will require two or more years of financial history.

and various professional organizations often feature financing workshops. They assist small businesses in developing a thorough

understanding of the financial needs of your specific business and the type of documentation required by financing audiences if you decide to apply for funding. The aim is to best prepare you to maximize your opportunity for approval from the funding source you select. The weekly Miami-Dade Beacon Council e-newsletter includes a listing of upcoming small business technical assistance

workshops, including those covering access to capital. To sign-up for the e-newsletter go to [www.beaconcouncil.com/weekly-newsletter](http://www.beaconcouncil.com/weekly-newsletter).

# GOVERNMENT SERVICES

Close working relationships with county, and sometimes state governments are required when starting or expanding your business. To obtain a building permit, environmental regulations, fire inspections or occupational licenses, contact applicable departments of government.

If your business is located within a city you will also need a city license. Be sure to contact the appropriate City Hall. If your industry is state-regulated, you will also need a state license.

Many businesses can benefit from a number of incentive programs available to businesses in designated geographic or industry sectors.
